# Main Topic

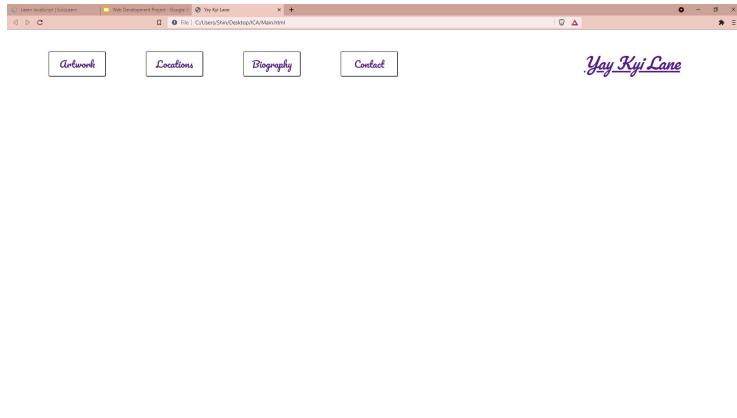

The Main topic and purpose of the website that I am planning to make is to showcase and display the artworks and biography of my Grandfather's Paintings.

Main Aspects:

- Clean and modern Design
- Make use of animations
- Interactive Components such as maps

# Template

I have already begun in the process of creating the web page with 4 separate pages, linked with all images that I will be using, imported, and specific fonts already selected.

# Main Aspects

Target Audience: Anyone who may be interested in purchasing or viewing artworks

Components:

4 separate pages, an interest form for contact, A purchase form to collect personal info for the sale and delivery of artwork

Remaining needed resources:

Bootstrapping code for the use of animation of images and for the use of maps to show painting locations
